

UVSQ

université PARIS-SACLAY

INTERNATIONAL

ISM-IAE is firmly oriented to the internationalization of its Bachelor and Master's Programs and to the development of the international experiences of its students and staff.

We welcome nearly 20% of international students and each of our master's programs offers a week-long international seminar in a foreign country (United States, China, Malaysia, Canada, Slovakia, Bulgaria, Sweden, Portugal...) in order to facilitate the experience and professional openness in an international context.

We encourage the international mobility of our students and have established 24 partnerships with foreign universities enabling the inbound and outbound mobility of students, professors-researchers and staff. These agreements allow us to invite and welcome international professors from many European countries, USA, Australia, etc.

Our master "Management in International Business" offers a full program in English and allow us to welcome anglophone international students.

In addition to the teaching activities, ISM-IAE of Versailles develops international

research partnerships and encourages the involvement of LAREQUOI PhD students in research activities organized within the framework of these partnerships.

Key figures 2024 - 2025

International Partnerships - 26

International students, free movers - 250

Agreement mobility students - 2 outgoing mobility and 1 incoming mobility
